

Handout: Integrating Gender Throughout the Program Cycle

IGWG

Steps 1 and 6: Project objectives, intermediate objectives, and results	Step 2: Types of data to be collected—what do we need to know about whom?	Step 3: Gender-based constraints/ opportunities to achieving objectives and results	Step 4: Interventions that address gender-based constraints/ opportunities	Step 5: Indicators to measure gender (removal of constraints or building on opportunities) and health impacts of interventions
