

Cooperating Agency Activities Related to Domestic/Intimate-Partner Violence and Reproductive Health
(funding for the listed activities is from USAID as well as other sources)

Organization	Materials	Type	Activity	Contact
CARE	Project brief	Gender and HIV/AIDS	<u>Bangladesh</u> : The connections between HIV/AIDS and violence are being explored from a human rights perspective in order to reduce vulnerabilities. Research, partnering with sex workers and IDUs, forming indigenous collectives, community mobilization, capacity building represent the key strategies undertaken.	Veronica Magar Phone: 66 2 576-1552-4 Email: magar@care.org
CARE	1. Study on masculinities 2. Project Brief	D&IPV; MH	<u>Bangladesh</u> : To reduce maternal deaths in Dinajpur, a VAW prevention initiative was undertaken as a part of a larger safe motherhood project. The objective is to ensure services for all girls/women subjected to violence who seek health services at the sub-district level. This is accomplished through community mobilization by developing community alliances, building civil society, empowering women and influencing local governance systems.	Veronica Magar Phone: 66 2 576-1552-4 Email: magar@care.org
CARE	Project brief	Refugees	<u>Eritrea</u> : Partnership with local NGO uses integrated community development approach to raise awareness and sensitize health care providers in repatriated refugee communities.	Doris Bartel Phone: 202-595-2804 Email: dbartel@dc.care.org
CARE		Refugees	<u>Kenya</u> : Strengthen community awareness and coordinate mechanisms to address rape and other violent assault in refugee setting. Program includes training of service providers, income generation for vulnerable women, using refugee outreach workers to work with local committees and communities on violence issues, referring and accompanying cases for medical and legal aid.	Doris Bartel Phone: 202-595-2804 Email: dbartel@dc.care.org
CARE	Project brief	D&IPV	<u>Kosovo</u> : understand prevalence of D&IPV and develop strategy to raise awareness; partner with local organizations; mass media campaign.	Doris Bartel Phone: 202-595-2804 Email: dbartel@dc.care.org

D&IPV—domestic and intimate partner violence; **DV**— domestic violence; **GBV**—gender-based violence; **FP**—family planning; **IDU**—injection drug use; **IEC**—information, education, Communication; **NGO**—non-governmental organization; **MOH**—ministry of health; **MH**—maternal health; **PAC**—post-abortion care; **RH**—reproductive health; **SV**—sexual violence; **VAW**—violence against women.

CARE	Project brief	D&IPV; FP and RH	<u>Tajikistan</u> : Use FP and RH as an entry point to address violence. Work in partnership with local NGOs to build their technical capacity address gender inequities and violence through raising awareness, empowering communities, working with the special groups such as the militia, credit groups and development of an IEC strategy.	Veronica Magar Phone: 66 2 576-1552-4 Email: magar@care.org
CARE	Project brief	Refugees	<u>Zambia</u> : Strengthen community awareness and coordinated response mechanisms to DV & rape in refugee setting. Program includes training for health workers, police, protection units, and coordinated meetings among stakeholders.	Doris Bartel Phone: 202-595-2804 Email: dbartel@dc.care.org
CARE	Project brief	D&IPV	<u>Zambia</u> : Work with community governance structures in Lusaka's peri-urban slums to enhance gender awareness. Training of community leaders and development of a gender leadership group facilitated gender support groups that act as informal dispute resolution mechanisms and intervene in gender violence cases.	Elisa Martinez Email: emartinez@care.org
Centers for Disease Control & Prevention (CDC)	Reports	General	Data Collection – Incorporation of country-specific questions related to GBV where surveys are administered to reproductive-age women (Azerbaijan, Ecuador, Georgia, Guatemala, Honduras, Mozambique Paraguay, Romania, Zimbabwe)	Tim Johnson jtj2@cdc.gov
CDC		Refugees	Developing prevalence data tool for conflict-affected populations that will be used in the SGBV tool kit and guidelines. Field tests begin June 2002 (in Kosovo and East Timor) with tool distribution in late fall. <u>Thailand</u> : RH survey among Burmese refugee women	Mary Kay Larson mil2@cdc.gov
