

# Reproductive Health for Refugees Consortium

## Gender-Based Violence

### Global Technical Support Project

Technical assistance and training for gender-based violence programs  
in populations affected by armed conflict  
*Implemented by JSI Research & Training Institute*

#### FACT SHEET

The GBV Global Technical Support Project provides technical assistance, training, and other support services worldwide to humanitarian actors addressing gender-based violence among war affected populations. The Project seeks to strengthen prevention and response to GBV by facilitating the establishment of effective program strategies that are ... outcome focused, community-based, multisectoral and interagency; that include appropriate protocols, procedures and management strategies, consistent data collection and reporting, and incorporate ongoing monitoring and evaluation.

#### TECHNICAL SUPPORT

- ⇒ On-site technical assistance, training, facilitated planning
- ⇒ Information dissemination, lessons from the field, resource materials
- ⇒ Ongoing technical support through email updates, response to questions from the field, resource packet mailings
- ⇒ Participants include UN agencies, national and international, NGOs, and government authorities; existing GBV programs or new initiatives

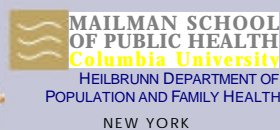

#### CONTINUING DEVELOPMENT OF GBV PREVENTION AND RESPONSE

- ★ Close linkages and ongoing collaboration with UNHCR, UNICEF, NGOs, and others to develop guidelines and recommended standards
- ★ Developing and field testing new documents, tools, and other resources with practitioners in the field
- ★ Promoting regional and global networks of GBV experts
