

Handout: Integrating Gender Throughout the Program Cycle

Steps 1 and 6: Project objectives, intermediate objectives, and results	Step 2. Types of data to be collected—what do we need to know about whom?	Step 3. Gender-based constraints/opportunities to achieving objectives and results	Steps 4. Interventions that address gender-based constraints/ opportunities Step 5: Indicators to measure gender (removal of constraints or building on opportunities) and health impacts of interventions
